

Viskon-Aire*

Air Filter Products

The Air Guardian 3 is the simplest and most reliable method to remove water vapor and oil from compressed air lines.

Water vapor and oil in the compressed air lines is the leading cause of paint imperfections and damage to pneumatic tools.

AirGuardian³

Point of use air dryer

Part No.
080-007

With Replaceable Desiccant Cartridge

Performance:

- Zero Paint defects caused by moisture
- Remove moisture vapor down to 1/2% RH
- Remove oil down to .01 micron
- 25 SCFM capacity
- 200 max pressure rating
- 200° F max temperature rating

- Clean Dry Filtered Air for:
 - Spray painting
 - All pneumatic tools
 - Pneumatic tire inflating

Features:

- Built-In filter elements
- Indestructible aluminum housing
- Integrated relative humidity indicator to let you know when to change cartridge.

Replaceable Cartridge

Part No. 080-014

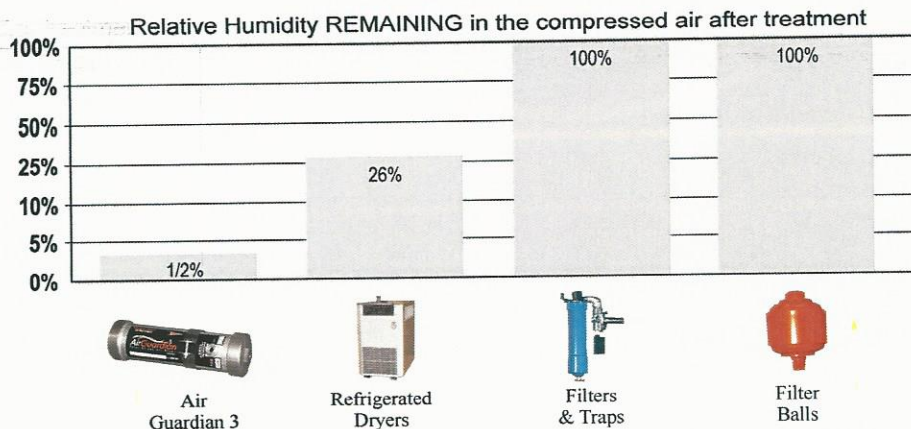

With the Air Guardian 3 replaceable desiccant cartridge it is easy to tell when you need to replace it. Simply look through the "Desiccant Eye" and when the blue indicating gel is pink it's time to replace the cartridge.

To replace the cartridge just unscrew the ends of the Air Guardian 3 and push the old cartridge out, slide the new one in. You are ready to continue working, it's that quick and easy.

The patent pending cartridge contains over 2 lbs of quality silica gel, two filter elements that removes dirt and oil down to .01 micron to ensure clean dry air.

Comparison

Filters and traps DO NOT REMOVE ANY MOISTURE VAPOR from the compressed air, they simply remove liquid water from the air line.

The best refrigerated air dryer on the market remove moisture down to about 26% relative humidity. The Air Guardian 3 gives you air that is about 52 TIMES DRYER than a refrigerated dryer.

Typical compressed air is saturated with 100% relative humidity. That means the compressed air is carrying a lot of moisture vapor when it goes into your paint gun or other point-of-use tool. The Air Guardian 3 removes up to 99.1/2% of the moisture vapor in your compressed air.
